

Sprint 4 Review Meeting

Apr 26 2024

Attendees:

Kacie P, Lysa H, Muiz O, Robert P, Elya D, Max Y
(Yifan Z out of the country)

Goals:

- Review our individual and group progress for sprint 4
- Note items which never got completed and why, move to “canceled”

Discussion:

We went through (mostly) every user story/task in Jira, one by one, demonstrating what has been done where appropriate, and discussing if they got complete to the extent that we were hoping.

See [Sprint4Tasks.xlsx](#) in GitHub (or Google Drive) to see a comprehensive list of all tasks which were completed/not completed in Sprint 4. This was worked on throughout the meeting.

The only things that remain to be done:

- User Manual / Final Report
- YouTube video (bonus marks)

Next Time(s):

No next time!
