

Progress Report 2 Meeting

Mar 22 2024

Attendees:

Brendan P (TA), Kacie P, Elya D, Lysa H, Max Y, Muiz O, Yifan Z, Robert P

Goals:

- Inform the stakeholders (Brendan) of our progress, and which tasks/user stories have been completed during Sprint 2 and part of Sprint 3.
- Get feedback on our Progress Report 2 and the progress of the site before formal submission of the document on April 1st.

Plan for Discussion (presentation):

- Go over sprint dates (GitHub) (Kacie)
 - Sprint 2: Feb 23-Mar 15
 - Sprint 2 Review Meeting: Mar 15
 - Progress Report 2 Deadline: Apr 1
 - Sprint 2 Retrospective Meeting: Mar 12
 - Sprint 3: Mar 16-Apr 12
 - Sprint 3 Planning Meeting: Mar 19
 - Sprint 3 Review Meeting: Apr 12
 - Final Report Deadline: TBD
 - Sprint 3 Retrospective Meeting: TBD
- Present work that has been completed during Sprint 2/part of Sprint 3
 - Skim through progress report 2 (Kacie)
 - Design
 - Front-end (briefly, will have demo)
 - Back-end (database connection to front end, updating, deleting...)
 - Testing (document)
 - Demo of the site in its current state (Yifan)
 - Journal page
 - Challenges page
 - Dailies page
 - Settings page
 - User profile page
- Go over tasks completed during Sprint 2 (Elya)
 - Excel spreadsheet completed during Sprint 2 Review
 - What tasks are currently in progress (Jira)?
- Front End team specifically mentions next few steps (Muiz)
 - Perfect dailies page
 - Challenges, leaderboard, settings, stats
- Back End team specifically mentions their next few steps (Lysa)
 - The next steps for the back-end include creating all the API's needed for settings, notifications, stats and group challenges. As well as finishing up the check in

system, getting a working profile picture, and ensuring we have full coverage for all our automated testing.

- Kacie ends it
 - Challenges
 - Successes
 - Jira/GitHub logs

Questions for Brendan (stakeholder):

- ☐ Do you believe we are making enough progress to finish our website in time?
- ☐ What do you think needs more attention?

Questions for Brendan (TA):

- ☒ ~~Will we be receiving feedback on our first progress report?~~
 - o No! But he said the previous one was a great in what we included, so if we keep the format the same we should be on the right track
- ☒ ~~We changed the purpose of Jira story points so the burnup/burndown charts will not accurately reflect effort put in for Sprint 2. What visualization from Jira should we include in our 2nd progress report?~~
 - o It's OK if we don't have it, but maybe have graphs made by a third party to show something from Jira
- ☒ ~~How will we be citing AI coding sources?~~
 - o Official open AI citation can be added to the final report, and if there is time we could have list of prompts to be more specific
 - o For non prompt AI assistants, just have a little write-up of how we are using them to assist us while coding, and perhaps what for
- ☒ ~~Bonus 5% -> do we need to publicly host it, or can we just create the YouTube video?~~
 - o He thinks we probably have to do both, but just doing a video like a user manual probably would give some bonus marks (maybe email the professor?)
- ☒ ~~Should we update our ER diagram with the changes we have made for the database for the progress report?~~
 - o Yes! We will update them

Discussion:

Our turn!

- Kacie showed off the report
- Yifan showed off the site
 - Homepage
 - Dailies page
 - Challenges
 - Leaderboard
 - User Homepage
- Elya chatted about sprints and Jira
- Muiz touched on front-end

- Lysa touched on back-end
- Kacie discussed challenges

His turn!

- Great presentation!
- Guest user homepage is blank?
 - We explained that we have a design ready for the guest homepage, it is just not implemented yet.
- Popup font could be changed to look different.
 - Aesthetics are really important, and the professor will likely bring it up, so we need to make sure that everything is looking perfect.
- Will you have time to test?
 - Yes! Explained that automatic testing is coming along very well, and Kacie is focused on completing the manual testing.
