

Meeting Minutes Feb 21 2024

Attendees:

Kacie P, Lysa H, Yifan Z, Muiz O, Robert P, Elya D
(Max Y away sick)

Goals:

- Look at Jira, what isn't done for sprint 1? Can we get any of them done for Friday?
 - Sprint review meeting Friday at 3!
- How are we going to present our work in less than 20 minutes to Brendan on Tuesday?

Notes:

- Everyone should write everything they've contributed for the first sprint in the Progress Report 1 so they can present it to the group on Friday.
- Everyone should send in images of what they worked on to the discord channel to be put in the progress report.
- NEED to have main branch updated with code to preview site as it is right now with Brendan on Tuesday (add an extra meeting Sunday?)

Discussion:

Before next meeting all group members will:

- Take screenshots of everything they have implemented on the site through the appropriate discord channel.
- Write their contributions at the bottom of the Progress Report 1 document.

Group member update:

Kacie

- Continuing work on progress report 1
- UML diagrams to be done by Friday
- Meeting note preparation for Tuesday

Muiz

- Still working on email system and verification

Lysa

- Testing for sign in/sign up for friday
- Want to connect privacy setting tables with the user table

Robbie

- Working on implementing habits backend
- When user is logged in, the system should save the information about UID
 - Decided that UID and other user info will be stored in session storage rather than in cookies, so it is easily accessible and sent for post requests

Yifan

- Working on making back end work with front end for signing in
- Connecting things from user info to the homepage

Elya

- Still working on implementing the user profile page

Max

- Still working on the Dailies page, hoping to get a demo of the work being done on Friday at the Sprint Review meeting

API document needs to be updated

- Example, when dailies page opened, send back list of habits and todo - what is the format of these requests?
- Need to make sure that front end and back end will communicate the same information and keep it consistent

Next Time:

Meeting - **Friday Feb 23 at 4:00pm**

Goal - SPRINT 1 REVIEW MEETING. What has everyone gotten done over the first sprint?

Run through the site in its current state. Update product backlog. Plan how we're going to present the site to Brendan on Tuesday. Might need to schedule another meeting on Sunday to update main before Tuesday.
