

Meeting Minutes Mar 20 2024

Attendees:

Kacie P, Lysa H, Max Y, Yifan Z, Elya D, Robert P, Muiz O

Goals:

Spillover from meeting we couldn't finish yesterday:

- Progress Report 2 Meeting with Brendan is on Friday (2 days). Who will be presenting what? When are we updating the main branch?
 - Has everyone accepted the Progress Report 2 Meeting invitation from Brendan?
- Update everyone on the status of Progress Report 2.
 - Everyone should add their contributions to the end of the document.
- Will we be meeting after our meeting with Brendan on Friday?
- Elya has questions to bring up about the website which we will cover.

Discussion:

Speakers for the presentation will be Kacie (GitHub/progress report/closer), Yifan (site demonstration), Elya (sprint 2 recap and Jira), Muiz (front-end update) and Lysa (back-end update). Format will be the same as the first progress report meeting.

Discussions about different aspects of the website:

- We will need an API for the user homepage to return the privacy settings of friends when trying to view their profile (may not have permission to see their email, name...)
- How will we be handling friend requests?
 - Our original plan was to have an email sent to the user with a link to accept or deny the friend request. Upon accepting the request, the requestor gets a notification that the two users are now friends.
 - Now, we will have the friend request come up as a notification in the top right of the screen in the notification pop up with links to accept/deny. Further notes are next to the finalized design on Figma. We will determine in the future if we will also send an email.
- Need to think about mobile view and accommodating smaller screen sizes.
- Sign up page needs to be edited, there are some CSS issues noticed during testing today.
- Elya got the updating user info on the user profile page set up with popups, but is struggling with removal of friends (still debugging the issue), and started doing popup for view profile (which needs API requests).
