Meeting Minutes Mar 26 2024

<u>Attendees:</u>
Kacie P, Lysa H, Max Y, Elya D, Robert P, Muiz O, Yifan Z

<u>Goals:</u>
- What has everyone been working on?
- What will everyone be working on?
- Can we/should we move the deadline for Sprint 2 back one week because the presentations were moved back?

<u>Notes:</u>

Hi everyone,

Just a quick reminder that the deadline for your second progress report is on April 1st, 2024, by 11:59 PM. Make sure to schedule a meeting with your TA to discuss your team's progress, if you haven't already done so!

Also, I would like to inform you that the final presentations will be held between April 22nd and April 30th. More details will be posted as we approach those dates.

Regards,

Naser

<u>Discussion:</u>

We decided that with the extra week, we will have a Sprint 4 scheduled for the week after we culminate Sprint 3, just for the reports/other required documentation and finalizing touches to the site.

Group member updates:
Kacie
- Working on report 2
- Will work on test cases and the user manual

Elya
- Got deleting friends working, worked more on friends functionality and friends pop-ups

Lysa
- Worked on sending the emails with Muiz (working now!!!)
- Working on APIs for settings and notifications, maybe looking into getting profile pictures working if she has time

Muiz

- Finished emailing, big pull request with challenges and leaderboard pages changes as well
- Still working on leaderboard and challenge pages (adding group habits)

Max
- Worked on settings page (added popup, are you sure you want to discard changes)
- Was looking at user profile css page and popups
- Will work on changing css of dailies page (pop-ups specifically)

Yifan
- Working on check-ins because API is updated
- Will work on the notification popup and fix warnings/errors on the site

Robbie
- Habit check-in will need more testing after looking at coverage
- Check-in function discussion
    - Users can only check in today? Eventually we want to do any day
    - Calendar needs to be implemented on the dailies page (Yifan will look into it)
    - We don't need todo check ins
    - How will we repeat todos?
        - Timer trigger jobs (crumbs)? Probably not
        - Discussed increasingly janky ways to do it that are not daily events, might leave this as an optional function
    - How are we dealing streaks?
        - If you do any of the habits in the day it updates number in the top right
        - So, we will have a login function that checks yesterday to see if there was a check-in, and if there was not, then the streak is set back to 0. Streak increases by 1 when you check-in your first habit of the day

Next Time(s):
Meeting - **Friday Mar 29 at 3:00pm**
Goal - What progress have we made? What will everyone be working on next? Is Progress Report 2 good to go? When are we going to update main?
